

## Communications Technician

### Our Company

Mine Site Technologies (MST) is a global leader in providing solutions to improve safety, efficiency and productivity for mining and industrial markets. Australian owned and established for over 23 years, our solutions are trusted by the world's largest mining houses and operate in over 500 mines globally.

### The Role

Reporting to the Manager – Operations West and based on site at Olympic Dam, you will service our customer on an 8 days on, 6 days off roster with flights from Adelaide. This position is an important customer facing role involving the service and support of MST technologies and other 3rd party mining related technologies. At all times you will carry out your tasks in a manner required for successful project delivery ensuring that you meet MST quality and safety expectations.

### Your Background

- Trade qualifications in communication/electronics
- At least 8 years' experience in either mining in a Communications role
- Australian Citizen or Permanent Resident
- Be able to pass a mine medical and regular drug and alcohol screens
- No criminal record
- Ability to work independently or as part of a team
- Unrestricted drivers licence
- Leaky Feeder Experience
- Knowledge of Ethernet and Wi-Fi
- Antenna Theory
- Coaxial, Cat5, Fibre Terminating and Repairs
- Use of Windows based and Windows Embedded PC's
- Analogue/Digital Video converters/servers
- Use of cable termination tooling
- Open Cable License
- Soldering Skills

Your attention to detail coupled with your ability to juggle multiple tasks simultaneously will see you an ideal fit to our growing organisation. You will have an unwavering commitment to safe work practices in both surface and underground mining operations with robust problem solving skills.
